## PREFACE

This product was prepared to assist in providing a better understanding of the employment situation in Androscoggin County. It covers the total number of persons working in Androscoggin occupations and provides projections of occupational demand to 1995 for over 300 detailed occupations. Education and employment and training program planners, job developers, and job managers assessing the availability of and demand for workers should use this product in the process of designing local training programs. The data contained within can be referenced in conjunction with information on occupational and industrial wages, area employment trends by industry, industrial projections and staffing patterns, labor force trends, and demographic data in order to assess the economic health of the County. Job seekers and students making career choices should reference these projections, as well as information contained in such complementary products as *Job Hunter's Guide to Maine*, *Maine Directory of Occupational Licensing*, *Maine Occupational Profiles*, and *Maine Occupational Needs to 1995*.

It should be recognized that any set of occupational projections should not be viewed as reflecting exact numbers, but rather as an indicator of the relative magnitude of demand and probable future direction. Accordingly, it is recommended that users of this product contact their respective area analyst for technical assistance and appropriate interpretation of the data. The analyst covering Androscoggin County is Gerard F. Dennison. He can be contacted at the Maine Department of Labor, Bureau of Employment Security, 522 Lisbon Street, Lewiston, Maine 04240, Tel. 207-783-9171.
